#### Administration

The State Treasurer, a constitutional officer elected to serve a four-year term, is the state's chief fiscal officer. The Treasurer's Office provides banking, investment, debt management, and accounting services for state government, keeping the books and managing taxpayers' money from the time it is collected in taxes until it is spent on programs by the Legislature. The office receives the state's cash resources, invests the money each business day to earn interest, and disburses funds to numerous entities, including agencies, local governments, and active and retired state employees. Office business functions are supported by a fully functional information processing environment. (State Treasurer's Service Account)

# **Banking Services**

The State Treasurer receives and deposits monies remitted to the state, and manages the disbursement of funds to state and local governments, vendors, beneficiaries, claimants, and employees. These banking services are provided to state agencies through the Cash and Warrant Management Division. The division promotes responsible financial practices to ensure the unimpeded inflow of monies to the state's bank accounts and the timely outflow of monies to payees. The warrant management section releases, redeems, and maintains the records of warrants that bear the signature of the State Treasurer. The division also is responsible for the negotiation and management of numerous financial contracts and agreements, and works in cooperation with other state agencies in support of Digital Government initiatives.
